

Navigating the landscape of Indian government tax concessions is often a complex process. While programs such as startup tax exemptions, R&D incentives, and sector-specific schemes offer significant financial benefits, they often remain underutilized due to strict eligibility requirements and extensive documentation.

Exemptus simplifies this process.

We manage the entire journey—from identifying applicable government programs to preparing documentation and securing tax incentives and financial concessions for your business.

Our goal is to help companies legally reduce their tax burden while ensuring complete compliance with government regulations.

What We Do

Exemptus helps businesses access government-backed financial benefits through a structured and managed process.

Our services include:

- Identification of eligible tax incentive programs
- Eligibility assessment and strategy planning
- Preparation of required documentation
- Application and submission support
- Government liaison and process guidance
- End-to-end execution until benefit realization

We take responsibility for managing the process so that your leadership team can remain focused on growing the business.

Government Incentives We Help With

Startup Tax Exemption (Section 80IAC)

Income tax benefits for eligible DPIIT-recognized startups.

Research & Development Incentives

Tax benefits and grants for companies investing in innovation.

Sector-Specific Government Schemes

Programs designed for manufacturing, technology, and export-focused companies.

Our Process

Step 1 – Business Assessment

We evaluate your business profile, financial structure, and eligibility for available government programs.

Step 2 – Incentive Identification

Our team identifies the most relevant tax incentives and financial concessions applicable to your company.

Step 3 – Documentation Preparation

We prepare and structure all necessary documents required for government submissions.

Step 4 – Application & Submission

We manage the application process and guide the submission to relevant authorities.

Step 5 – Approval & Benefit Realization

We support the process until approvals are obtained and the benefits are secured.

Why Businesses Work With Exemptus

- Specialized focus on government incentive programs
- Structured and transparent process
- End-to-end execution support
- Compliance-focused documentation preparation
- Personalized guidance for each business

Our objective is to make government financial benefits accessible, practical, and valuable for businesses across India.
